

**Middle School Mathematics**  
**Parent Information**  
**for Online Campus Tutorials to Support AKS**

1. Online Campus offers your child the opportunity to reinforce Academic Knowledge and Skills (AKS). The AKS have been put into a self-paced, interactive, online tutorial. These tutorials are just an additional support and **are not required**.
2. The cost is \$10/child/course.
3. The tutorials will be available to students from **5/26/09 – 8/9/09**. Registration and payment is completed through Richards Middle School. Once payment has been made, your child will receive a login and a password.
4. The tutorials contain explanations, quizzes, assignments, and tests for all AKS with step by step feedback when applicable. Students can repeat any portion as many times as needed to learn the content. Although tests are graded by the computer, they do not count. These tests should be used to monitor strengths and weaknesses.
5. The tutorials are Internet-based, and can be accessed on any computer with Internet access. There is **no grade** attached to this course. There is **no “teacher”** to monitor your child’s efforts. However, directions, assignments, and examples are clear and thoroughly present the content. It will be up to you and your child to assure that he/she makes the best use of the resources and assignments.
